

**TOWN OF CHATHAM
WATER DEPARTMENT**

Application for registration of irrigation systems connected to the Public Water System.

1. Location of irrigation system connected to the Public Water System.

Name: _____

Amount Paid: _____

Street: _____

Check No: _____

Water Account Number: _____

Date: _____

2. Attach drawing of showing the building(s) layout and the location of the backflow prevention device and rain sensor.

3. Is the system installed with a testable back-flow prevention device? Yes No

Attach a drawing and specification of the existing back-flow prevention device.

A testable back-flow prevention device is required on all systems.

If a back-flow prevention device is not currently installed on your system the

Water Department will perform a survey and establish the type of device

required.

A Double Check Valve Device is not an acceptable device

4. Is the Irrigation System equipped with pesticides, fertilizer, and/or herbicide dispensing device(s)? Yes No

5. A timing device is required, is this system equipped with a timing device? Yes No

6. A rain sensor is required, is this system equipped with a rain sensor? Yes No

*****If the answer to questions 3, 5, or 6 is NO your system will not be inspected or considered registered until all the proper equipment has been installed and inspected.*****

PRIVATE WELLS SHALL NOT BE CONNECTED TO ANY IRRIGATIONS SYSTEMS THAT ARE OR WILL BE CONNECTED TO THE PUBLIC WATER SUPPLY.

As stated in the "Town of Chatham, Rules and Regulations of the Water Department," the undersigned agrees to provide access to all authorized agents of the Water Department at reasonable hours for inspection of the irrigation system and testing of the backflow prevention device.

The registration fee for new and existing irrigation systems is \$50.00.
