Sewer Construction Update

Chatham – C.C. Construction, Inc. is commencing work for the Oyster Pond Sewer Extension, Phase 1C – 3 & 4, Project on Monday, September 9, 2019. Work this fall will include sewer installation, limited water main work, and pump station work. C.C. Construction plans to start this project with one crew, weather permitting.

Work for the week of September 9th – 13th:

Monday/Tuesday – test pits for existing utility locations on Perch Pond Road and Wilfred Road.

Wednesday – Friday – Sewer construction on the following street(s): Sky Way.

Work for the week of September 16th – 20th:

Monday – Friday – Sewer construction on the following street(s): Sky Way.

Roads will be passable at the end of each day. Police Details and Contractor will work with residents to ensure their needs for access are addressed.

Police Details and signage will be in-place to assist motorists in reaching their destination.

Normal work hours are 7:00 AM to 4:00 PM Monday to Friday, weather permitting.

We encourage you to visit the sewer construction project web site for updated schedule information and weekly press releases at: <http://www.chathamscproject.info> and the Town's

website for additional information regarding the CWMP and other important projects and events in the Town at: <http://www.chatham-ma.gov>.

Thank you for your patience and cooperation during this important project to restore and protect our environment.

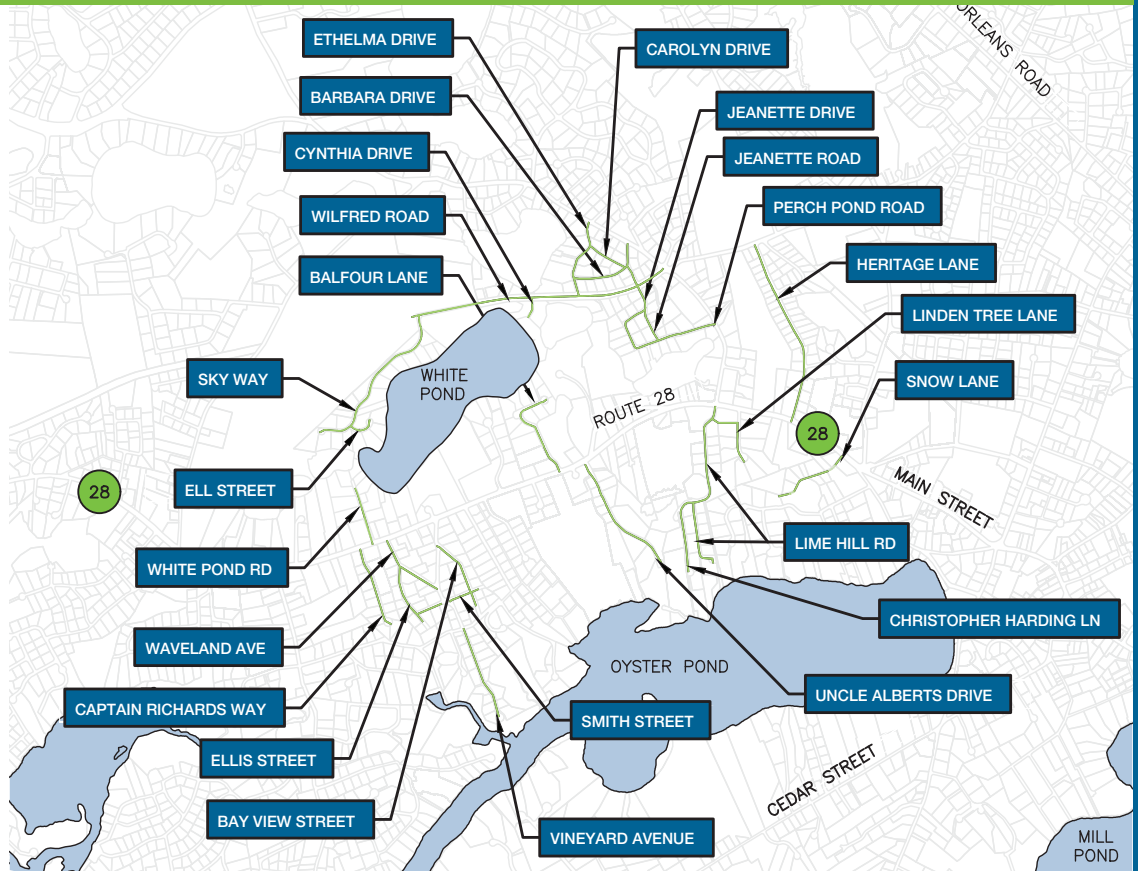

###

Town of Chatham Collection System Project

The project

Construction of the Town of Chatham's Collection System Project will continue with Phase 1C – 3 & 4 and is financed by the Clean Water State Revolving Fund (CWSRF). The CWSRF program is administered by the Massachusetts Department of Environmental Protection (MassDEP) with joint funding from the U.S. Environmental Protection Agency and the Commonwealth of Massachusetts. This project will reduce nitrogen loading to Oyster Pond through implementing a sewer collection system in the Phase 1C – 3 & 4 area, which includes the following locations:

The community benefits

- 1 The project includes gravity and low pressure sewers, three new pumping stations (Balfour Lane, Perch Pond Road, and Sky Way), and one odor control facility (Wilfred Road).
- 2 Construction of sewers will reduce the nitrogen loading to our groundwater and sensitive estuaries and will provide water quality benefits for community residents and businesses in Chatham.
- 3 CWSRF programs operate around the country to provide states and communities the resources necessary to maintain and improve the infrastructure that protects our valuable water resources nationwide.

Funding assistance from: USEPA/MassDEP
Owner: Town of Chatham, Massachusetts
Engineer: GHD Inc.
Contractor: C.C. Construction, Inc.
