

Town of Chatham Conservation Commission
Form Acknowledging Understanding
of the Order of Conditions

Date: _____

Property Owner: _____

Project Location: _____

DEP File Number: _____

The Order of Conditions that you have received makes it clear that no deviations from the approved plan are to be permitted without prior Commission approval. Failure to comply with that condition subjects the homeowner and the contractors to fines, stop work orders, Enforcement Orders or other enforcement measures. The purpose of this form is to make sure that you (the applicant or representative acting on behalf of the representative), any subsequent owners, all engineers and all contractors are made aware of this condition. The property owner will bear the ultimate responsibility for compliance, so please be sure that any deviations from approved plans are brought to the attention of the Conservation Commission BEFORE any work commences.

Accordingly, your contractor(s) must read the statement below and return a signed copy of this notice to the Chatham Conservation Commission at the address shown below before any work is undertaken on this project.

I, the Representative/Contractor, have read the Order of Conditions for the project and understand that the project has been permitted with Special and General conditions. Furthermore, I understand that any change in the project requires prior approval by the Conservation Commission. If the project changes, contact the Conservation Agent.
