For Immediate Release

Sewer Construction Update

Chatham – Sewer construction will continue for several weeks, weather permitting. Continued sewer construction is to minimize impacts to road re-paving scheduled for after Columbus Day.

For the weeks of July 9th to July 20th crews will be completing installation of low pressure sewer, sewer laterals, and water main on Shattuck Place, Shattuck Lane, Grist Mill Lane, Tide Mill Lane, Wind Mill, and Wineberry Way. Change-over of water services from the old main to new main will take place in the fall.

Following completion of the above work the Contractor will be installing 3 sewer laterals on Depot Road, and several water services on Janes Way.

The Contractor will also be performing testing, invert installation, raising castings, and general cleanup at various locations.

Police Details and signage will be in-place to assist motorists in reaching their destination.

Roads affected by sewer construction will be open nights, weekends, and holidays to all traffic.

Normal work hours are 7 AM to 5:00 PM Monday to Friday, weather permitting. Work may extend to 7 PM in special circumstances

We encourage you to visit the sewer construction project web site for updated schedule information at: <http://www.chathamscproject.info> and the Town's website for additional information regarding the CWMP and other important projects and events in the Town at: <http://www.chatham-ma.gov>.

Thank you for your patience and cooperation during this important project to restore and protect our environment.
